

I benefit from listening to both XM and Sirius Satellite Radio systems and its traffic and weather channels. Satellite radio provides me with great variety and quality that are not available in my area. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve.
